

# Equine Groom Apprenticeship Level 2

## Apprenticeship

In order to start your apprenticeship in horse care you will need to join the Level 2 course and learn the basic skills needed to progress on to Level 3.

Apprenticeships allow you to work while gaining a nationally recognised qualification at the same time, so why not combine your love of horses with earning money? Over the course of 15-18 months, you will be working in paid employment within the equine industry and you will spend one day every week during term time at college. You'll study a wide range of subjects around the care of all different types of horses.

If you ride or do not ride, don't worry – there are specialised routes that you can take which include riding, non-riding, racing, breeding or driving.

The Duchy Stoke Climsland campus is located in beautiful countryside and provide dedicated equestrian facilities, which include indoor and outdoor schools and working yards. Here you will have the opportunity to practice your skills in preparation for the end point practical assessments.

Expect to spend time away from your employer on day release with practical and theory delivery helping you to prepare for your EPA (End Point assessment) with the support of your work coach. Assignments will also be set as well as various classroom activities, workshops and tasks to help you gain the skills and knowledge needed alongside support and training from your employer in order to prepare you for a career in the equine industry.

During your practical session, correct PPE must be worn, consisting of riding gloves, correct footwear, body protector for jumping and suitable hat - visit <https://www.cornwall.ac.uk/wp-content/uploads/2022/05/2022-BHS-Approvals-Hat-Guide-v1-1.pdf> for more information
