

Agriculture Certificate

16-19

Adult

Agriculture is arguably the most important industry in the world and without the food, clothing and fibres it provides, we simply wouldn't survive. Now an industry with highly-mechanised processes, employment in this sector goes beyond farm workers and managers to engineers, consultants and scientists.

This is a full-time course for anyone who wants a broad introduction to the agricultural industry. Throughout the course you will develop skills and knowledge in a range of farming disciplines and technologies.

You can expect to develop a wide range of skills across the range of farm enterprises. You are also required to complete 150 hours of work experience as a core element of your study programme, providing invaluable exposure to the industry.

We are very proud of our Home Farms at Bicton College and Duchy College Stoke Climsland, which both incorporate dairy herds, the milk from which is sold to Saputo UK (formerly Dairy Crest) and is used to make Cathedral City cheddar. Bicton Home Farm totals 147 hectares used for grass and crop production, as well as a central area of parkland, on which we support a flock of 120 Mule ewes. We have many upgrades and improvements planned.

Duchy College Home Farm totals 240 hectares of farmed land, including grassland, forage maize, winter wheat and spring barley, a flock of 100 February lambing Highlander cross Texels, a flock of 100 pure Highlanders, as well as three breeding sows and their piglets. We are currently developing a new 200 cow dairy unit.
