

Developing Progression Skills

16-19

The Developing Progression Skills course is part of our Progress Pathway and supports students with Special Educational Needs and Disabilities (SEND) to further develop independent learning and life skills and applying these to a range of vocational subjects.

Learners will be supported to develop their key progression skills (such as communication, working with others, problem solving, study skills and life skills) so they are well prepared to continue with further vocational study or progress to work. Our vision is to support you to be **INDEPENDENT, CONFIDENT** and **RESILIENT** so that you are well-prepared for your next steps.
