

Veterinary Nursing Diploma

Adult

Our veterinary nursing teaching areas are designed to simulate a veterinary practice. We have a radiography room, laboratory, kennel area and operating theatre. We have many pieces of equipment that you would expect to find in a veterinary practice such as microscopes, anesthetic machines, operating tables and a large variety of surgical instruments. We also have a range of mannequins and our students have access to our animal management centre.

As a veterinary nurse you will provide support to sick and injured animals who are receiving treatment in a veterinary practice and provide expert nursing care. You will help to educate owners on maintaining the health of their pets and carry out a range of medical treatments under veterinary supervision. Knowing that you have helped nurse animals back to full health is one of the most rewarding careers.
