

Introduction to Veterinary Health

Leisure and Professional

Do you want to learn how to take better care of your pets? Are you potentially interested in a career or career change into the animal health and veterinary sector? Or do you want to be able to work better with your vet?

Understanding the principles of veterinary health and care is essential for anyone who owns, cares for, or works with animals, at any level.

Led by a qualified vet and lecturer, this introduction to veterinary health is a practical and informative way to enhance your knowledge and prepare for further learning in the animal health sphere.
