

Introduction to Ecology Skills Bootcamp

Adult

Employer Training

This course is designed to help develop new practical skills and knowledge linked to the management of habitats and outdoor environments. Skills Bootcamps aim to develop practical skills that can help lead to employment, promotion and expand self employed business potential.

These skills include the safe use of hand tools and machinery to maintain habitats, including strimmers, brush cutters and mowers.

Fencing maintenance and core knowledge of health and safety and countryside related legislation as well as an introduction to ecology surveying and best practice.

We offer a wide range of construction skills bootcamps. Click here to find out more
